ISBN : #0534947220 | Date : 1995-03-20

Description :

PDF-c1377 | In their successful text, Shen and Kong cover fundamentals of static and dynamic electromagnetism fields and waves. The authors employ a unique approach, beginning with a study of Maxwell's equations and waves and covering electromagnetic fields later. This presentation allows students to work with electromagnetic concepts using relatively simple computational analysis, building in a logical progr... *Applied Electromagnetism (Pws Engineering Foundation)*
