Description :

PDF-ba80b | The telescope is undoubtedly one of the world's most far-reaching inventions. For the past four centuries the telescope has stood at the forefront of human discovery. From its humble beginnings in seventeenth-century Holland, when a simple spectacle-maker first presented his invention to his country's military leaders, to today's colossal structures housed in space-age cathedrals, the telescope ha... *Stargazer: The Life and Times of the Telescope*
