Description :

PDF-e8592 | We learn the lessons of traffic control early in life, and with good reason. There are nearly 300,000 traffic signals today in the United States. Each traffic signal performs the task of regulating whose turn it is to go and who must wait. A traffic signal system at its core has two major tasks: move as many users through the intersection as possible and do it with as little conflict between these... *Traffic Signal Systems Operations and Design: An Activity-Based Learning Approach (Book 1: Isolated Intersections)*
