Description :

PDF-aa579 | A blend of history, science, philosophy, and environmentalism, *The Tree* is an engaging and elegant look at the life of the tree and what modern research tells us about their future. There are redwoods in California that were ancient by the time Columbus first landed, and pines still alive that germinated around the time humans invented writing. There are Douglas firs as tall as skyscrapers, and a b... *The Tree: A Natural History of What Trees Are, How They Live, and Why They Matter*
